### The Sachet

Our sachets are made from PP, a thermoplastic polymer that is widely used in sustainable packaging, therefore our sachet is 100% recyclable. PP is known for its strength and durability, making it a great choice for sachets that need to withstand high altitude / heavy duty.

### The Box

The box that contains the Swypes is made from FSC-Certified card, and therefore can be fully recycled.

**The best! Still finding new uses...**  
The best! Does exactly what it says...

After the gym, on the road... They're just really useful to have great and leave you feeling fresh.

**Quick and easy to use**

Quick and easy to use. Kept me sweat free for hours!

★★★★★ **The best thing I packed**

Just back from an overland trip to Istanbul- these were a lifesaver when I wanted to freshen up but had a tight connection. The individual sachets were great to keep on hand and the wipes leave you feeling clean and fresh like you've actually had a wash - there's no stickiness like with other wipes. Made themselves a permanent fixture on my packing list.

**Great service**

Great service, keeping me updated with progress of order and offering incentives via email too.  
Also ensuring I'm satisfied with product, giving option to review and rate good or bad. All good for me
